

WINSTON / ROYAL GUARD CORPORATION

Type DU56 Fabricated Duplex Strainers

The Type **DU56** fabricated heavy duty duplex strainers are the solution to continuous operation when downtime is not an option. The assembly features two Type 56 strainers with modified inlet and outlet arrangements.

Features:

- 1-1/2" to 24" and larger line sizes are available.
- Various valve and piping arrangements are available.
- Rugged fabricated housings.
- Heavy duty strainer baskets.
- Commercially available valves.
- Strainer body support legs.

Benefits:

- Easily switched between active and idle strainer bodies without flow interruption.
- Strainer housing are fabricated and NOT CAST for long lasting service without potential for cracking.
- Valves are heavy duty for continuous service and long life.
- Customer specified valves can be used for local parts inventory.
- Easily serviced with standard components if and when necessary.
- Customer specified options are easily accommodated.

Options include: ASME Code stamped strainer bodies, top closure lifting davits, Quick-opening closures for easier and faster basket cleaning, open bottom baskets for blowdown, skid mounted, lifting eyes, differential pressure connections, vent, motorized valves, and other customer requirements.

ASME Code Certified: Winston/Royal Guard is an ASME Section VIII, Division 1 Code certified manufacturing facility with National Board certification. Capabilities include all types of non-destructive testing with a rigidly controlled Quality Control system.
